-  Good faith cooperation

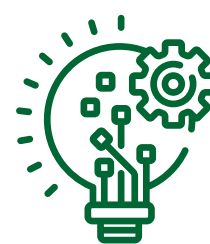

We are among the market leaders, as we have managed to gather the best professionals from the areas we need.

Our products are bestsellers, they are multifunctional, and at the same time they cover many of our customers' requests!

We use innovative elaboration to improve product quality.

Our products are produced in Russia from natural ingredients and materials using the latest modern technologies.

All our products are certified, which means that they have successfully passed the tests of the laboratory center, all standards for absolute quality, safety, and complies with the technical regulations of the customs community.

We keep up with the times, and constantly replenish and update our assortment with new products, taking into account the desires, needs and demands of our customers.

We supply our products throughout the CIS to kindergartens, schools, hypermarkets, marketplaces

and we are confident that we will be relevant in the European market.

In future cooperation, we will be happy to take into account and discuss the best solutions for the beneficial position of both sides.

The whole world has to adjust to today's realities. Will demand decrease or increase because of today's global restrictions on our products?

It will increase!

- **95% of our goods are manufactured in Russia!**
- **No restrictions on transport logistics**
- **Our goods are in the customer's FIRST need category!**
